

Appl. No. 10/531,169
Amdt. dated Mar. 23, 2007
Reply to Office action of Nov. 24, 2006

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims

Claims 1-14. (Canceled)

15. (Previously presented) A pair of gloves for right and left hands, each glove being a shaped covering with individual sheaths for each finger and a thumb, each glove being formed with a front and a back in which at least one glove has one or more narrow bands delineated across its front, the front and back of both gloves each being bi-colored or bi-patterned in mutually exclusive portions such that, when worn, and a golf club is being held in correct grip, only portions of one color or pattern are visible to a user characterized in that one glove has a substantially circular formation on the sheath for the thumb for location, in use, with a substantially semi-circular formation provided on the front of the other glove, the semi-circular formation being directed towards the sheath for the thumb to assist in the correctness of the grip.

16. (Previously presented) A pair of gloves according to claim 15, wherein a dart of material of a contrasting color or pattern to the surrounding material is provided at the bottom of the sheath for the thumb of the back of each glove, the dart being directed from a crease between the sheaths for the thumb and forefinger towards a cuff of the glove.

17. **(Previously presented)** A pair of gloves according to claim 15, wherein the bi-colors or bi-patterns selected are of a contrasting appearance.

18. **(Previously presented)** A pair of gloves according to claim 15, wherein a fastening device is provided on the back of each glove at or near to a cuff.

19. **(Previously presented)** A pair of gloves according to claim 18, wherein the fastening device comprises a slit being provided from the cuff towards the finger sheaths with a first zone of one part of a two part fastening being provided on the outer face of the back adjacent to one side of the slit and a tab being provided on the back at the other side of the slit to overlie the first zone, the second zone being adapted to mate with the first zone provided on the undersurface of the tab.

20. **(Previously presented)** A pair of gloves according to claim 19, wherein the two part fastening is a hook and loop fastening means.

21. **(Previously presented)** A pair of gloves according to claim 16, wherein the cuff has an elasticated membrane.

22. **(Previously presented)** A pair of gloves according to claim 15, wherein the shapes of the portions of the fronts and backs of the gloves to be colored or patterned differently are determined by the visible and non-visible areas of the gloves in use, when the correct grip of the golf club is adopted by a user.
